Study the locations of the squares in the image below. On the next page of this packet we will be asking you to recall their exact locations. When you feel that you have learned their locations turn to the next page. You will not be permitted to turn back to this page once you have turned to the next page.
Recall the location of the squares that you saw in the image on the previous page. Select the correct location for the shapes and mark them in the box below here. You MAY NOT turn back to the previous page to see their locations; this task is to be done from memory.
Study the shape, size, and location of the objects in the image below. On the next page of this packet we will be asking you to recall their exact shapes, sizes, and locations. When you feel that you have learned their shape, size, and location turn to the next page. You will not be permitted to turn back to this page once you have turned to the next page.
Recall the location, shapes, and sizes of the objects on the previous page. Select the correct size for the shapes from the images below. Then mark the location of each shape from the image on the previous page. You MAY NOT turn back to the previous page to see their locations; this task is to be done from memory.
Study the locations of the squares in the image below. On the next page of this packet we will be asking you to recall their exact locations. THIS PAGE INTENTIONALLY LEFT BLANK (TURN TO NEXT PAGE)
Recall the location of the squares that you saw in the image on the previous page. Select the correct location for the shapes and mark them in the box below here. You MAY NOT turn back to the previous page to see their locations; this task is to be done from memory.
In this exercise pretend you are traveling between the points marked “SCHOOL” and “HOME.” Place the stops between school and home in their proper place on the timeline on the bottom of the page.
INSTRUCTIONS:

You have two maps of the Smith Farm. One map shows the crops that are grown in different parts of the farm. One map shows the types of soil in different parts of the farm. You want to identify the areas of the farm that have both sandy soil and are being used to grow wheat. How would you do this? Color in this area on the crop map.
Overlay operators – USE PAPER COPY ON FILE IN REG’S OFFICE.
